Introduction

Cochin Steel LLC. is one of the leading design & fabrication company engaged in the manufacturing and installation of storage tanks for Diesel, Petrol, Water and Chemical tanks. We also undertake customized fabrication services like Oxy Fuel Cutting, Plate Rolling, Dished Ends Manufacturing, MIG Welding, Arc Welding, Machine Shop Works etc. Our specialized water storage tanks made of ZINCALUME and GLS are the industry leading solutions for water storage for fire water as well as irrigation water requirements. Based in UAE, Cochin Steel is a market leader and pioneer in this industry and have been serving our esteemed clients with top-of-the-line products and services since 2006.

We have state-of-the-art manufacturing infrastructure that is well equipped with latest machinery and tools that allow us to meet the exact demands of the clients in an effective manner. Moreover, the in-depth knowledge of our workforce helps us to cater to industrial fabrication services as per the exact requirements of our clients. This is the reason why our storage tanks for diesel and other fuels are the best in the market.

“ *Our strong business ethics, transparent fair dealings, and client centric approach has helped us to attain maximum client satisfaction.* ”

Our strong business ethics, transparent fair dealings and client centric approach has helped us to attain maximum client satisfaction. Owing to durable finish standards and abrasion resistant finish and quality of basic materials, our tanks find wide applications in varied industrial sectors. Featuring precision fabricated bodies, the tanks are designed for durable and reliable performance and require minimum maintenance. The Tanks are also available in different specifications. We also specialize in dished ends from 1m to 3.4m diameter. With more than 200,000++ tank installations in the UAE and the MENA region, we can safely say that we are one of the best companies for all your fabrication requirements.

Quality Policy

Cochin Steel LLC is involved in manufacturing of steel storage tanks, road tankers, trailers, steel fabrication and their associated business administration and has a vision to be synonymous with professionalism and innovation together with faultless and safe project delivery in every operational area.

A key way to achieve this is by operating a Quality Management System (QMS) in accordance with the requirements of ISO 9001:2015.

Top management is committed to:

- Satisfying applicable requirements by ensuring that customer and applicable statutory and regulatory requirements are determined, understood and consistently met.
- Continual improvement of the QMS by ensuring the risks and opportunities that can affect conformity of products and services and the ability to enhance customer satisfaction are determined and addressed and the focus on enhancing customer satisfaction is maintained.

Top management shall:

- Take accountability for the effectiveness of the QMS.
- Ensure the quality policy and quality objectives are established for the QMS and are compatible with the context and strategic direction of the Company. Quality objectives have been set and are maintained as part of the QMS internal auditing, monitoring and management review processes, in order to enhance customer satisfaction.
- Promote the use of a process approach and risk-based thinking.
- Ensure that the resources needed for the QMS are available; including training, support and encouragement.
- Communicate the importance of effective quality management and of conforming to the QMS requirements.
- Ensuring that the QMS achieves its intended results.
- Engage, direct and support persons to contribute to the effectiveness of the QMS.
- Promote improvement.
- Support other relevant management roles to demonstrate their leadership as it applies to their areas of responsibility.
- Establish partnerships with suppliers and interested parties to provide an improved service.

This policy will be communicated to all employees and organizations working for or on our behalf. Employees and other organizations are expected to co-operate and assist in the implementation of this policy, whilst ensuring that their own work, so far as is reasonably practicable, is carried out without risk to themselves, others, or the environment.

This policy will be reviewed annually by top management and where deemed necessary will be amended and re-issued. Previous versions of this policy are archived.

This policy is available to relevant interested parties, upon reasonable request.

Managing Director

	HSE POLICY	CS-IMS-P-02
		Rev 00

Cochin Steel LLC is engaged in a business of Storage Tanks Products, Oilfield Products and Transportation Products. We shall remain committed to protection of the Health and Safety of our staff, employees, visitors, subcontractors and the community at large and protect the physical environment in which the company activities are carried out.

The Management and Staff of Cochin Steel LLC are committed to:

- Ensuring the safety and welfare of our staff and the protection of our assets.
- Shall be determined to fulfill our commitments and services that meet the needs and expectations of our customers.
- Ensuring the prevention of any impact on the environment resulting from our actions.
- Complying with all relevant Health & Safety, Environmental legal laws and other regulatory requirements.
- To identify the hazards (the potential for harm) assess the risks (the likelihood of that harm being realized) and manage those risks.
- To maintain work equipment in a safe state and provide both safe systems of work and a safe working environment for employees and all who work on our behalf.
- Periodically review the suitability, adequacy and effectiveness of the HSE management system.
- Strive to prevent any incidents, occupational illness or exposures which could cause harm to people and damage to properties and assets and the environment and maintain Emergency Plans to reduce risks and adverse effects.
- Make every effort to protect the environment and prevent pollution, to minimize consumption of materials, to promote reuse and recycling of wastes and adopt best practice on waste management.
- Strive to achieve continual improvement through implementation and review of the HSE management system and related performance.
- To prevent accidents and cases of work-related ill-health.
- Policy will be reviewed periodically and will be available for employee and public.

These commitments will be achieved by:

- Establishing and maintaining a documented Health, Safety and Environmental Management System (HSEMS).
- Ensuring procedures, program and guidelines are in place to support the HSEMS.
- Providing the necessary HSE resources for the implementation of the Management System
- Communicating the Company's HSE policy and Objectives to relevant interested parties including its employees, stake holder, clients and customers.
- Setting, monitoring and reviewing HSE targets and objectives.
- Complying with HSE Policy.

Tank Accessories

FUEL SYSTEMS

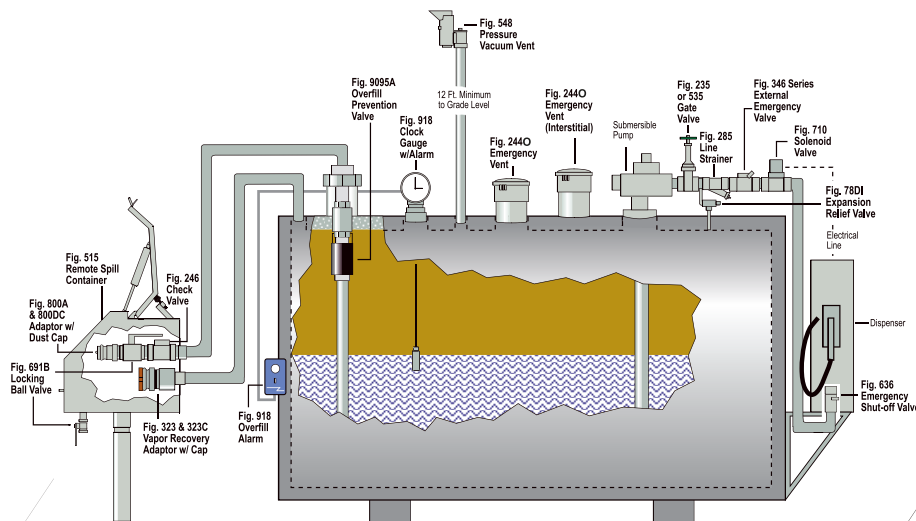

Our ASTs and USTs can be equipped with European or American approved instrumentations to protect your Tanks from leak, spillage or fire hazards, We can provide different applications based on your requirement and budget.

Fuel Systems can work in harmony with Generator's base tanks or day tanks. We offer spotted leak detection both for pipe works and Tanks bund walls.

ZONE VARIETIES

We supply and install steel tanks and accessories in different zones and applications, with access to reputable brands and experienced personnel we can ensure that your investment is safe in different safety zones.

PRESSURE/ VACUUM VENTS

UL/NFPA Approved Pressure Vacuum Vents protect your fuel from evaporation and in terms of highly flammable fuels it will keep the fuels away from the Tank perimeter.
